If you don't know where you want to go, how will you know when you get there?
If you don't know what you want, then how will you know if you have it?
If you don't know who you want in your life, how will you know when they are there?
If you're not planning your life, then who is?

Water Tiger 壬寅 2022

Early morning of February 4, 2022 at 4:52 am welcomed the transition to the Solar New Year of the Ren Yin or Water Tiger.

Theme of 2022: Spiritual Growth and Alignment

The focus of 2022 is on raising physical, emotional, mental, and spiritual vibrations to a higher frequency. The Tiger begins a new season of energy as we leave the cold winter animals of Pig, Rat and Ox behind and welcome the Spring animals of Tiger, Rabbit (2023) and Dragon (2024).

This is a year to prioritize time and energy on what truly matters to you. With a higher consciousness, you will be in a more spiritually aligned place and will be able to handle the ups and downs of 2022.

Here are the top facets to remember in 2022:

1. Increase clarity to enhance intuition
2. Strengthen courage so you have the energy to take risks
3. Maximize your personal capacity to realize your full potential
4. Ask for help and communicate more effectively to grow and succeed

What To Expect from the 2022 Tiger

- People are suffering from pandemic hangover, fatigued by lock downs and the rise of new virulent strains of COVID-19.
- The new term “metaverse” used by Mark Zuckerberg, will take center stage as we move into a new 20-year cycle of energy that showcases the rise of technology in every aspect of our lives.
- COVID will still be around and best-case scenario shows a worldwide shift in thinking from vaccines to medicine. Working to Find treatment/medicine that will lessen the virus's severity and become acceptable worldwide. Highly likely COVID will become endemic, and we will need to learn how to live with this new virus in our world from here on.
- Increasing Taxes and Inflation

Biggest Business Threats in 2022:

1. **Pandemic Hangover:** If living with COVID is not resolved, expect to see more businesses closing by the end of the year. Employees and business owners are now adjusted to working from home and this will change the landscape of business indefinitely. Smart business owners will figure out how to work with this new trend.
2. **The Great Resignation:** People are not applying for employment even though companies are hiring. Many have chosen early retirement or to follow a passion that is more aligned to their inner selves.
3. **Wealth Gap 2.0:** If you have been living with a scarcity mindset, you must shift your thinking. If you have been saying "I cannot afford this or that," the time it now to spend your money on becoming better, investing, and growing your wealth. We are entering a time of super giants. Expect to see mergers and acquisitions and larger companies than ever before. The Metaverse is just the beginning as technology will explode in every facet of our lives.
4. **Sustained Tension and Transfer of Power:** Continued Biden vs Trump supporters would be an example of this as well as Taiwan and the conflict happening in that country. This tension is likely to continue to erupt in protests and conflicts
5. **Financial Market Collapse:** There is a financial collapse in the pipeline, and it has been there for over a year and spans the next 2-3 years. We can see this as inflation begins to rise and people will soon be poorer (See wealth gap 2.0) It is highly likely that by Fall of 2022, we will see a shake-up even though governments will be printing more money in hopes of salvaging what they can. When there is a change in the market, do not fear it! Make your new normal better than your old normal.

***It is not as simple as saying 2022 will be good or bad. You must decide what you WANT!
Then, if you get it, the year is good!
If you do not get it, the year it not so good.***

***For 2022 to be good for you, you either have to do something or don't do something.
It's that simple.***

As a new 20-year cycle of energy shifts into place, it brings with it new laws, and new results. While the shift we are currently leaving was all about Young Men Creating Tech, this new era is bringing in a more female-centered focus and a movement toward self-awareness and self-improvement. The new focus will be around enlightenment, wellness, energy healing, and metaphysics. Those who were never interested in these topics before will suddenly be hit by a bolt of interest and seek guidance on their path.

We can also expect that technology takes center stage in every aspect of life and an escalation of conflict and the potential for war—or even more likely, Cyberwar.

What is the BEST PLAN for 2022?

If you don't know what you want, how will you know if you get it?

1. *Clarify your goals before you get to work on them:* Get Clear on what you want to achieve this year.
2. *What do you need to take off your plate?* Most of us have too many things we are trying to accomplish. This is a time to simplify and focus. If there is too much on your plate right now, then there is no room for the new coming in. Create a **GET RID OF LIST!**
3. *Discover New Skills:* With new technology, the playing field has been leveled for everyone. Never has it been easier to create a global business from your living room. Do you have the right skills for what is happening in the world? Decide what you want to become good at and then do it.
4. *Courage:* It takes courage to be able to shift, change, and grow. Connect in and elevate your courage and then take courageous action forward.

There is a metal-wood clash in 2022 which signals big change and transformation. The Universe will be pushing us all to become better. Why resist? Schedule time into your life to work on your internal world.

The water element is extremely strong which can indicate strong currents and potential flooding. Yang Water also relates to the military so we could see some military involvement in the year as well.

We can create momentum right now as 2022 is the pivot year and likely the most important year to position yourself into the flow of period 9. This is going to be an erratic year and is signaling the collapse of the old and the rise of the new. It is time to find your own truth and focus on your own growth and make progress in terms of relationships, health, wealth and become a better human being.
